## **Dossier:**

### 1) Seoul – Operations Commander

Seoul is an operator that was born out of a divided Korea. She was formerly an intelligence officer but defected from the agency when she exposed her former government to their human execution in exploiting a labor pool. With her comes predictable organizational power in leadership at a battlefield level during a period of stress; she operationally coordinated multiple facets of the siege in the same way as a chess grandmaster would.

### 2) Tokyo – Lead Tactician

A former street rebel, Tokyo has arrived at her current position from her own urban warfare experience and is most at home in chaos that she can turn into brilliant street action and on-the-ground plans. Her instincts kick in, as 'remous' (tactical improvisers) fear potential water pressure drops at first.

### 3) Berlin – Internal Security Head

Berlin was formerly the Chief of Division for a border patrol unit for the JEA that troubleshooted border security. His operational training is now forwarded to protect the Resistance from their own corrupt impostors. His Operation Berlin strength is contingent on loyalty screenings, framed with paranoid plot tripwires, and brutally straightforward.

### 4) Moscow – Demolition & Entry Coordinator

Moscow navigates the complexities of old and new with ease, having spent 20 years working on underground transit tunneling across East Asia before being blackballed by his own ideals and union organizing. He controls all forced entry and conditional escape points based on explosives.

#### 5) Nairobi – Print Technician

Nairobi was a Mint technician and is a mechanical whiz. She was initiated into the movement after leaving her pension savings accounts tied up in currency when the economic crisis hit. There is not one print technician on earth who knows all of the old technology in print machinery like she does. In support of the Resistance promenade, transparency and accountability were taken into account during the grand heist (risk free to execution fatigue).

#### 6) Rio – Chief Hacker

A young onboarding from a tech boot camp in Pyongyang, Rio, was arrested for exposing pitch information on classified surveillance and vanished—until Sunho found him. Until then, he has been running the Mint's networks and modulating military coordinating systems in real time.

#### 7) Denver – Operational Logistics

Denver was a former underground MMA fighter whose specialty was easily and effectively using supplies on hand to create weapons or laying traps to ambush people. He is able to be a chameleon under fire, adapting to the environment, creating fear, or using raw muscle when the embers are flying.

#### 8) Helsinki – Hostage Control & Morale

A former hospice nurse and war refugee from North Korea, Helsinki aptly joined the Resistance, having promised to protect life while orchestrating a revolt. His main skill is controlling the hostages while maintaining an air of calm and building trust, minimally compromising the mission.

#### 9) Lisbon – Strategic Government Negotiator

Lisbon was once an extremely public antagonizing diplomat for the UN who had no choice but to resign after witnessing the economic THAW once North Korea was accepted into the fold. She will run public-facing negotiations and run down enemy processes by stalling where it will matter most.

#### 10) Oslo – Heavy Defense

Oslo is a defector and former North Korean tank maintainer; naturally, he inherits a mental framework of the power of fortification, and by sheer brute defence also throws things back at a brutal enemy assault. A quiet and deadly operative, forced to remain neutralized and prevented from being the last line between retaliation.

#### 11) Paris - Disguise Coordinator

Paris is a well-known stylist in the black-market world and has designed fake identification and disguises for fleeing dissidents throughout Asia. She has the ability to make a guard look like a hostage and vice versa.

#### 12) London - Public Message Director

London was a viral video editor before her brother was convicted during the reunification protests, and now she is the creator of the Resistance broadcasts that manipulate public space within the two nations.

#### 13) Istanbul - Counterintel Chief

Istanbul was embedded with the North Korean surveillance unit before flipping when the Mint targeted her own family for “economic treason.” She creates false trails, isolates moles and encrypts internal security like no one else.

#### 14) New York - Narrative Architect

An expelled journalist, New York, takes information from insiders in the media and rogue AI to reconstruct the public perception of the heist. His skill is framing the Resistance not as criminals—but as visionaries.

#### 15) Rome – Symbolism & Gesture Designer

Using a projection device to have once shown anti-government sentiments on the Mulligan Mint's walls, Rome is politically-minded and skilled in the rebellious public art phenomenon. Creating symbolic gestures like coordinated money drops or protest graffiti to bring public awareness as group or utilize technology to galvanize the masses is her passion.

#### 16) Cairo – Smuggling Route Liaison

A logistics broker in the underground North–South trade, Cairo smartly takes advantage of fishing routes, tunnels, and mules to smuggle equipment in and, at the same time, loot out. Furthermore, her network is the invisible pipeline that assists in making the operation successful.

#### 17) Shanghai – Drone & Surveillance Hacker

Shanghai is a former civilian drone designer for the JEA, after one indeed architected and viscerally targeted her cousin, Shanghai is now the Resistance's eye and ear through the skies to jam, or redirect drone feed while on the fly.

#### 18) Mumbai – Tech & Encryption Lead

A self-taught coder and former currency miner, Mumbai constructed the Resistance's quantum-safe communications. She is the resolve signal strength, with no signal out nor in, will be able to leave or enter unless Mumbai states or allows.

#### 19) Mexico City – Fake Documents Specialist

Mexico City is an identity forger who recently fled cartel violence. Mexico City is capable of designing a hostage to look like a diplomat or otherwise forge a new life for each member of the team. Mexico City's documentation is so realistic that border patrols on either side have been duped.

#### 20) Buenos Aires – Psychological Manipulator

A therapist turned whistleblower, Buenos Aires keeps hostages compliant and crew in line through an array of subtle manipulation and interrogations. She is a pro in leverage.

#### 21) Bangkok – Escape Timing Expert

Prior to the crackdown following reunification, Bangkok executed escape simulations for dissident groups. Now she matches each step of the heists - from tunnel dives to hostage exchanges - to the millisecond.

#### 22) Dubai – Finance Tracker

As a financial analyst who uncovered how foreign investors exploited the reunification deal, Dubai requires each Won printed to be accounted for and ensures that any laundering is conducted through crypto channels.

#### 23) Singapore – Supply Chain Coordinator

Formerly a border logistics officer, Singapore has detailed maps of food, fuel, and medical distribution across the JEA. Her spreadsheets are keeping the Resistance alive inside the JEA.

#### 24) Tehran – Explosives Planner

Known in black marketing circles as "The Chemist," Tehran builds custom explosives, able to breach without harming civilians. Each bang she plans carries a message.

#### 25) Lagos - Decoy Specialist

She was a street performer and is now a consultant for military escape plans. She specializes in deception— staged escapes, fake duffle drops, hostage look-a-likes. She can turn chaos into cover.

26) Toronto - Emotional Mediator.

Toronto is the former group counselor who intervened after a Mint crackdown on protestors killed her cousin. She is a mediator who de-escalates tension between group members before it turns deadly.

27) Lima - Underground Mapper

A civil engineer once contracted to lay down infrastructure under the JEA, Lima memorized sewer maps, structural weak points, and escape routes. She maps out the Mint's underground system like a second skin.

28) Hong Kong - Spoof Media Specialist.

This ex-cyber warfare contractor ran fake news networks during the reunification talks. Now, she taps into the same feed press that releases news for her to subvert to the resistance's narratives. She can get a hostage video to go viral in minutes.

29) Athens - Legal Systems Analyst.

Athens was a law clerk who found loopholes in the post-reunification Constitution. She ensures that the actions of the resistance straddle the line between criminal and revolutionary.

30) Barcelona - Culture Hacker.

Barcelona grew up in underground clubs, where the collision of protest music and fashion took place. She co-opts every act of minutemen as a protest, creating a shared moment in cultural history that goes viral.
